AKESEA

- Customized design with Australian map, not only cosmetic item, but it is carefully designed;
- Extra loading, traction and mileage, for example, 37x12.50R17 loading index is 131, much higher than regular 124.
- High turn-up, 3 ply polyester casing strengthens tire to provide excellent handling and durability while maintaining proper load capacity.
- 23 degree is the ultimate angle for cutting and self cleaning.
- Stone ejector in the shoulder grooves help prevent tyre damage from stones or external impacts and enhances handling confidence.
